## Forgotten foods – presented in a modern way

With partners from the region, we bring animal breeds, vegetables and herbs as well as fruits back to the plate, which could not withstand the mass market due to the demands in terms of quantities, transport stability and freshness. Many of these lost products offer a special taste experience, great colour structures and used to be an important part of regional cuisine. We would like to bring this tradition back to the plate freshly created.

Unfortunately, the foods are only available in small quantities, hence it can happen that individual products are not always available. Thank you for your understanding.

Caper sauce, barley risotto, pray salad

Please note; the animal breeds are free-range animals with more muscle meat. The consistency of the meat is therefore firmer and the taste more intense and substantial.
